Pamper yourself in the Grevillea suite

Your private suite within the historic sandstone Rose Lindsay Cottage is filled with fresh flowers, original early Australian water colour paintings, exotic hand-woven rugs, designer furnishings and a porcelain and pine washstand.

French doors open from your bedroom to your private sitting room with exposed sandstone walls and huge windows overlooking the garden. Here you'll find home made biscuits, local spring water and all you need for a relaxing pot of tea or plunger coffee.

Your suite has a second bedroom. If you want to bring family or friends, there is plenty of room for doubles or twin share. When you wake a generous continental breakfast will be served to you in the sunny dining room or on the terrace overlooking the garden.

The wonderfully comfortable lounge and dining rooms will delight you and you can even play a genuine pianola from the Roaring Twenties! On a sunny day or a balmy evening you can swing on the swings just like in the movie 'Sirens' or play petanque on the lawn.
