

## 2.0 TRAINING MATERIALS

We have a range of DVDs and instructional leaflets to provide an introduction to the modeller on techniques and approaches to building a period model ship. Each provides wise advice and guidance based on the knowledge of experienced modellers.

### 2.1 Instructional DVDs

All our instructional DVDs are presented and narrated by Leon Griffiths, Master Period Ship Modeller. In each DVD Leon presents a range of tips and techniques to guide and assist the modeller.

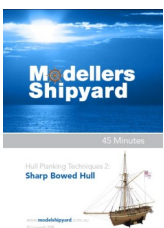

#### Hull Planking Techniques 1 - Bluff Bowed Vessels

This 55 minute DVD demonstrates a technique to complete the first and second layer of hull planking for a wooden model of a bluff bowed vessel such as the Endeavour, Bounty or Victory. The techniques are demonstrated while Leon builds a model of the colonial sloop Norfolk sailed by Bass and Flinders in their circumnavigation of Van Diemen's Land in 1798.

**Order Code:MSDVD001**

#### Hull Planking Techniques 2

This 45 minute DVD demonstrates a technique to complete the first and second layer of planking for a wooden model of a sharp bowed vessel such as the Flying Fish, Albatros, Lady Nelson, Shenandoah or Mermaid. The techniques are demonstrated while Leon builds the HM Cutter Mermaid. **Order Code:MSDVD002**

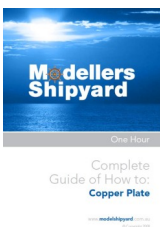

#### Hull Planking Techniques 1 & 2 - Sharp Bowed and Bluff Bowed Vessels

This 2 DVD Set incorporates our popular Hull Planking 1 and Hull Planking 2.

**Order Code: MSDVD003**

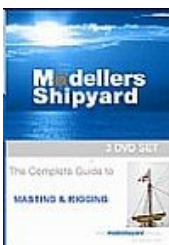

#### The Complete Guide of How to Copper Plate

In this DVD there is over 1 hour of narration and demonstration of a technique to complete the Copper Plating of a period model ship. The technique is demonstrated while Leon Griffiths, Master Period Ship Builder installs copper plates on a model of the HMS Sirius Flag Ship of the First Fleet which arrived in Port Jackson in January 1788.

**Order Code: MSDVD011**

#### The Complete Guide on Masting & Rigging

In the DVD there is close to 6 hours of detailed demonstration to make the masts, yards and spars of a three masted period model ship. Also extensive detail is shown to complete the standing and running rigging of the model along with a unique technique to install the flags to give the effect of fluttering in the wind. The techniques are demonstrated as Leon Griffiths Master period Model Ship Builder builds a model of the HMS Sirius, Flag Ship of the First Fleet which arrived in Port Jackson in January 1788. **Order Code: MSDVD012**
